CONNECTICUT ASSOCIATION STANDING.

(Special to The Bulletin.) (Special to The Bulletin.)

New London, Aug. 5.—Willimantic regained the lead in the now three-cornered Trollay league by defeating the Whalers this afternoon by the score of 5-4. It was a game well played, but devoid of sensational features, except the flue catch by Shaun Sullivan in left garden for Dunn's Colts. Phillips held down the slab for three innings, but in the third the visitors landed upon him heavily and he was replaced by Reiger. Phillips allowed eight hits while in the box.

Umpire Rogers gave dissatisfaction in his calling of balls and strikes and in his decisions on fair and foul balls An attendance of barely 100 saw the game.

CONDITIONS LITTLE CHANGED. Hollowness of Market Demonstrated-Gains Wiped Out.

New York, Aug. 5.—The stock mar-ket, while still narrow and professional today, reflected a more aggressive mood on the part of that element in the speculation. Their position was adhered to with more determination and was not changed until the end of the day. The attitude assumed by the professional traders was based on a conviction that a large short interest Dominick & Dominick

News developments falled to show any marked alteration in conditions from those recently prevailing. Re-garding the corn crop, there has been a marked decline of apprehension over the amount of damage done by the drouth. Buyers of stocks today on the floor of the stock exchange professed the belief that the government crop report on Monday will prove to be fa-

orable. Weather advices today showed good conditions both for corn and totton, and the buils made use of the news to push the advance in stocks. The

and the buils made use of the news to push the advance in stocks. The rise in the private discount rate in the London market raises the question whether opposition will be made to a further movement of gold from there to New York. The London Statist says of the situation:

"We can afford to be fairly liberal to the United States at the present time. In fact, if we are not, a somewhat severe reaction in trade may occur in the states, and the reaction may give that country greater power to import gold than may be comfortable for other markets."

Whatever the additional movement of gold from London may be, another enormous accretion of cash to New York bank reserves is indicated by the preliminary estimates of the week's currency movement. Sub-treasury operations, which include payments for imported gold, have supplied to the banks \$6.897.000, while the inflow of cash from the interior will swell the aggregate to from \$15.000,000 to \$17,600,000. There have been rumors of further private settlements of stock market accounts during the week, which may affect the loan item, but there is no expectation that the deposit item will be sufficiently expanded to prevent a large increase in the surplus reserve. The actual figure of the surplus in last Saturday's bank statement already stood at upwards of \$47.000,000.

Bonds were firm. Total sales, par there is no expectation that the deposit item will be sufficiently expanded to prevent a large increase in the surplus reserve. The actual figure of the surplus in last Saturday's bank statement already stood at upwards of \$47,000,000.

Bonds were firm. Total sales, par value, \$1,467,000. United States bonds were unchanged on call.
